

BACKPACK GIRL

Complete Scenario Matrix — Advanced System with Dual RapidSwap Magnets

25 Total Scenarios

11 Threat

8 No-Threat

6 Elevated / Ambiguous

DEFAULT IMAGE: Two-handed firearm presentation — Backpack Girl's printed default shows a two-handed extended grip with weapon aimed directly at officer. Backpack visible over left shoulder. The advanced system includes two RapidSwap magnets enabling simultaneous overlay placement at the **hands position**, **waistband**, and **backpack** — a third overlay location unique to this model.

24	Candle + knife	Concealed gun — backpack	THREAT
25	Candle + knife	Concealed gun — waistband + backpack	THREAT

CLASSIFICATION KEY	THREAT — Active threat present. Shoot decision may be warranted.	ELEVATED — Weapon present but not actively threatening. Assess, challenge, do not immediately shoot.	NO-THREAT — No weapon visible. No shoot.

INSTRUCTOR NOTE: Always randomize overlay configuration before each run. The Backpack Girl model is the most psychologically challenging in the TIM system — age, gender, and context create natural hesitation. Officers must make the same objective threat assessment regardless of subject profile. Run Elevated scenarios with verbal challenges to train proper escalation protocol.
